**Being the difference is
in our DNA – providing
education with a purpose, in
a research-led environment.**

At Stirling, our graduates stand out. Stirling students leave campus equipped with life-changing skills. Our graduates are motivated, self-confident, digitally aware, enterprising individuals who are making an impact on the world stage. Our flexible courses, study abroad options and internship opportunities help our students to be the difference in their chosen careers.

We are
helping society

We deliver groundbreaking, interdisciplinary research that makes a difference.

From developing pioneering scientific techniques to bringing clarity to global political, social and economic landscapes, our experts are advancing knowledge and influencing thinking locally, nationally and internationally.

We collaborate with international governments and policymakers, businesses and charitable organisations to provide solutions to some of the toughest global challenges.

We have key strengths in the fields of:

- Living well
- Global security and resilience
- Cultures, communities and society

We are recognised for excellence

We are globally connected

**Over 120
nationalities
represented
on campus**

We are a destination of choice for students, research partners and businesses from around the world.

Here at Stirling, our academic and research partnerships allow us to generate and share different perspectives to address key global issues.

Our international collaborations enable us to share expertise with our partner institutions – and enhance our efforts to prepare Stirling students for success as global citizens in a fast-moving world.

The City of Stirling and our beautiful 330-acre campus offer our student and staff community a unique blend of Scottish tradition and a cosmopolitan feel. Stirling provides a fantastic base to explore one of the world's most vibrant, welcoming and inspiring countries.

#Scotlandwelcomestheworld

We are Scotland's University for Sporting Excellence

As Scotland's University for Sporting Excellence, the University of Stirling has one of the best reputations for sport in the UK.

Our students rated us first in Scotland for sports facilities¹, which include a 50m swimming pool and a nine-hole golf course.

As the home of Scotland's National Swimming Academy, the Scottish National Tennis Centre and Triathlon Scotland, our campus is a formidable training ground for top Olympic and Paralympic athletes. Our student athletes regularly compete at world-class events, including the Commonwealth Games, the Olympic Games and the Walker Cup. In 2016, we welcomed our Olympic athletes home from Rio with three silver medals.

We are focused on sustainability

As a global university, we have an important role to play in promoting sustainability, both locally and internationally.

Sustainability is embedded in everything we do, whether it's through teaching and research, or the services we offer students and staff.

We are continually reducing our carbon footprint, and are helping to support the government's carbon emission targets for Scotland.

We embrace innovation by investing in new technologies, and constantly review and renew our business practices. This enables us to deliver services that meet the needs of our students, staff and stakeholders.
