

INCITE TECHNOLOGY LTD (ITL)

Guide to Information Available through the Model Publication Scheme 2015

Introduction

The Freedom of Information (Scotland) Act 2002 (the Act) requires Scottish public authorities to produce and maintain a publication scheme. Authorities are under a legal obligation to:

- publish the classes of information that they make routinely available
- tell the public how to access the information and what it might cost.

About this scheme

Incite Technology Ltd has adopted the Model Publication Scheme 2015 produced by the Scottish Information Commissioner. This scheme has the Commissioner's approval until 31 May 2019.

You can see this scheme on our website at <http://www.foi.stir.ac.uk/governance/index.php> or by contacting us at the address below.

Guide to Information

The purpose of this guide is to:

- allow the public to see what information is available (and what is not available) in relation to each class
- state what charges may be applied
- explain how to find the information easily
- provide contact details for enquiries and to get help with access to the information
- explain how to request information that has not been published.

Availability and formats

The information we publish through the model scheme is, wherever possible, available on our website. We offer alternative arrangements for people who do not want to, or cannot, access the information online or by inspection at our premises. For example, we can usually arrange to send information to you in paper copy (although there may be a charge for this).

Exempt information

We will publish the information we hold that falls within the classes of information below. If a document contains information that is exempt under Scotland's freedom of information laws (for example sensitive personal information or a trade secret), we will remove or redact the information before publication and explain why.

Copyright

Information obtained from this publication scheme cannot be copied or reproduced without formal permission. Such permission will usually be granted provided it is copied or reproduced accurately, is not used in a misleading context and provided that the source of the material is identified and the copyright status acknowledged.

The publication scheme may, however, contain information where the copyright holder is not Incite Technology Ltd. In most cases the copyright holder will be obvious from the documents. In cases where the copyright is unclear, however, it is the responsibility of the person accessing the information to locate and seek the permission of the copyright holder before reproducing the material or in any other way breaching the rights of the copyright holder. Wherever possible, this scheme will indicate where we do not own the copyright on documents.

Information about Crown copyright material is available on the website of the Queen's Printer for Scotland at www.oqps.gov.uk. We can provide you with a copy of this information if you do not have internet access.

Charges

This section explains when we may make a charge for our publications and how any charge will be calculated.

All information contained within our scheme is available from us free of charge where it can be downloaded from our website or where it can be sent to you electronically by email.

We reserve the right to impose charges for providing information in paper copy or on computer disc. Charges will reflect the actual costs of reproduction and postage to the authority, as set out below. In the event that a charge is to be levied, you will be advised of the charge and how it has been calculated. Information will not be provided to you until payment has been received.

Reproduction costs:

Where charges are applied, photocopied information will be charged at a standard rate of 10p per A4 side of paper (black and white copy) and 30p per A4 side of paper (colour copy). Computer discs will be charged at the rate of £1.00 per CD-Rom.

Postage cost:

We will pass on postage charges to the requester at the cost to the authority of sending the information by first class post.
